Rule on Supervisor and Supervising

DECISIONS AND RECOMMENDATIONS

Due to a lack of a quorum the minutes from the March 21, 2007 meeting, were tabled until the next meeting on February 20, 2008.

Mr. Ormond addressed the Board explaining that the Legislative Review Committee felt that there was no conformity in how the Divisions professions define “Supervision”. Mr. Stanley, Division Director, is proposing adding a section to R156-1 which will primarily define three levels of Supervision; Direct Supervision, Indirect Supervision, and General Supervision. Mr. Ormond then asked the Board to review the suggestions and notify the Division if they wished to incorporate all, part, or none of the suggestions.

After a detailed discussion it was recommended to maintain the current definition of supervision, as it is stated in 58-64, all Board members present agreed.

Proposed Rules Change

Mr. Ormond explained that Mr. Walker, Division Regulation Officer, had requested several changes to the last proposal. The current proposal changes to R156-64 are:

102 – several definitions have been added to better clarify this profession.

201 – was added to allow for an Education Peer Committee.

302a – the fingerprinting requirement was removed, based on lack of statutory requirement.

302b (2) – has been reworded to allow a broader range of experience, to meet the requirements for licensure.

302d – was added to clarify the duties and responsibilities of a Deception Detection Intern Supervisor.

302e – was added to require a Deception Detection Intern to submit additional documentation to be submitted to the Division prior to being issued licensure.

306 – was removed due to a lack of statutory requirement

305 – was rewritten to clarify unprofessional conduct within this profession.

Mr. Ormond commented that he would finalize the proposal and hoped to schedule a hearing to finalize the proposal by November, 2007. He then questioned if there would be any resistance from the industry concerning any of the proposed changes. Mr. Pickup did not feel that there would be.

Verification of Compliance with all Renewal Requirements

Mr. Pickup requested that the Division perform a complete audit of this profession at the next renewal to ensure that all licenses are complying with the renewal requirements. The other Board members present agreed, adding that if a licensee is having difficulty conducting the required twenty-five exams per renewal period, they should be contacting other agencies
